2018 SPEAKER BIOGRAPHIES

Greg Bruce, County of Simcoe Paramedic Services Platoon Supervisor/Infection Control Officer

Greg is an Infection Control Officer and certified paramedic in the County of Simcoe Paramedic Services in Ontario. He is currently responsible for infection prevention and control issues, exposure management and Pandemic Planning. Greg is considered a leader in Prehospital Infection Prevention and Control and has been a speaker in multiple forums regarding this topic. He is a founding member of IPAC Canada Prehospital Care Interest Group and works hard to advance IPAC issues in this health care setting.

Dr. Richard Rusk DVM MD CCFP MPH

Dr. Richard Rusk works in Manitoba Health Seniors and Active Living as a Medical Officer of Health where he is the Medical Officer of Health in the Communicable Disease Unit. He has been instrumental in developing the One Health Framework in Manitoba, is passionate about creating a collaborative approach to emerging diseases and is working on improving Antibiotic Stewardship Programs.

Dr. Sergio Fanella MD FRCPC DTM&H

Dr. Sergio Fanella is program director for the Paediatric ID training program at the University of Manitoba. He has interests in antimicrobial stewardship, antibiotic resistant infections in children, blastomycosis, and pertussis.

Dr. Dr. Tim Hilderman MD FRCPC

Dr. Tim Hilderman is the medical lead for vaccines at Manitoba Health to Manitoba Health Seniors and Active Living, a Medical Officer of Health in the Interlake Eastern Regional Health Authority, Medical Director of Interlake Eastern Travel Health Services and an Assistant Professor in the University of Manitoba's Faculty of Health Sciences. He is active in vaccine and communicable disease control research.

Gale Schultz BN, RN

Gale is a registered nurse with close to 40 years' experience in health care. She has recently retired as Regional Director, Medical Device Reprocessing for the Winnipeg Regional Health Authority. Gale is a member of the Canadian Standards Association (CSA) and is current Vice-Chair, Technical Advisory Committee on Reprocessing.
